AUTOMATIC TYRE DEFLATORS

DEFLATES
4 TYRES AT
ONCE

4 PACK

Maintain optimal traction across terrains like dirt, sand, and rock with adjustable pressure settings from 10–30 PSI. This essential 4WD accessory deflates all four tyres simultaneously and features durable construction for reliable performance.

KEY FEATURES

- Adjustable pressure settings (10-30PSI)
- Simultaneous deflation
- Durable construction
- Essential 4WD accessory
- 12 Month warranty

PACK INCLUDES

- 4 x Automatic tyre deflators
- 4 x Spare valve caps
- 1 x Storage pouch

INSTRUCTIONS FOR USE

1. Rotate the green body to the required pressure setting.
2. Turn the black upper nut to lock pressure setting.
3. Screw the tyre deflator to the tyre valve stem.
4. Pull the top of the tyre deflator to release the air from the tyre. The deflator will automatically stop at the preset pressure value.
