JSP2000 LITHIUM JUMP STARTER + POWERBANK

 JUMP START UP TO 8L PETROL ENGINE

 JUMP START UP TO 6L DIESEL ENGINE

 2000A PEAK CURRENT

JUMP STARTING YOUR CAR IS QUICK AND EASY

- 1 Insert the plug of the smart battery clamp into the jump starter. The green and red light indicators on the battery clamp will then flash alternately.
- 2 Connect the red clamp to the positive terminal (+) and the black clamp to the negative terminal (-) of the car battery.
- 3 Start your car.
- 4 Once your car has started, remove the battery clamps from the car battery within 30 seconds.

KEY FEATURES

- Designed to jump start up to 8L petrol engines and up to 6L diesel engines
- Charge phones, tablets and USB devices
- LED Torch
- Universal clamps
- 12 Month warranty
