

# Genuine UHF Accessory ANU1200

## Town & Country Pack

3dBi Short antenna including heavy duty, large barrel spring base with elevated feed. Extension fiberglass pole to convert the 3dBi base to a 6.5dBi antenna.

### Pack includes:

- UHF CB Antenna (3dBi) with 0.43m\* fiberglass pole and heavy duty spring base
- 1m Fiberglass extension pole to convert antenna to a 1.4m 6.5dBi high gain antenna
- Includes grub screw and hex key to secure the fiberglass pole.

The ANU1200 features a new unique quick convert system for fast, hassle free interchangeability of whips taking you from the flat to hilly terrain. This feature is ideal when entering low height garages and car parks. A cap is supplied to protect against water and dust when the extension whip is removed. It is an ideal addition for 4WDs and heavy vehicles.

**Finish:** Black Powder Coating

**Mounting:** The antenna can be mounted in any position on a vehicle that has a suitable mounting bracket attached usually with the antenna mounted as high as possible to give best range.
