Accessories included with T5509R

Optional headset order Part # HCLE4044A

\*Voice communications are not permitted on channels 22 and 23.

\*\*Depending on conditions and terrain.

## Motorola UHF-CB Long Range Two-Way Radios

With 1 watt transmit power and a 7km range\*\*, the T5509R is designed for activities that demand long-range capabilities.

### Durable Styling

Featuring a superb rugged outdoor case design, the T5509R has been created to withstand the rigors associated with outdoor activities. And, the T5509R comes with a pair of handy belt clips for greater portability and convenience.

### Full-Featured Privacy

The 38 privacy codes of the Continuous Tone Coded Squelch System (CTCSS) allows the user to listen to transmissions using the same code on the same channel, effectively blocking out unwanted conversations.

### Range Extender (Duplex Mode)

Local repeater stations re-transmit your signals over a wider area. This extends the effective range of the radio, giving you greater reach.

## Accessories included with T5509R

- 1 twin desktop charger
- 2 rechargeable batteries
- 1 AC adaptor
- 2 replaceable coloured faceplates

## Power to Spare

Just drop in three AA batteries (not supplied) or the rechargeable pack (supplied) and you're ready to start communicating. In use time is 12<sup>†</sup>/30<sup>††</sup> hours based on 5% transmit, 5% receive and 90% standby (rechargeable battery pack<sup>†</sup>, alkaline batteries<sup>††</sup>).
