- 1 x USB Charging cable (5V Power Adaptor not supplied)
- 1 x Velcro mounting tape*

Velcro Tape Installation Instructions

*Velcro Tape: 3M™ Dual Lock™ Reclosable Fastener SJ3550. It is strongly recommended that the surface is thoroughly cleaned prior to application using IPA wipes, you can also use a primer to increase adhesion further. Installation temperature should be between 20-27°C, The pressure sensitive adhesive tape requires a clean dry surface and firm even pressure (15psi) to ensure good contact with the surface of the substrate to which it is being applied. It is advised to wait one hour after tape installation before installing the camera.
